PROFILE

Computer Science graduate of American International University-Bangladesh (CGPA 3.93, Magna Cum Laude, Software Engineering major). Head of IT and Computer Science Teacher at The New School Dhaka, where I lead the IT team and own the institution's technology infrastructure, and Founder of Dabblers360, a ten-person consultancy delivering IT, marketing and business solutions. Research interests span Large Language Models, Human-Computer Interaction, Software Engineering and Sustainable Computing, with five research works completed and an active track in green computing across the Software Development Life Cycle.

LEADERSHIP & PROFESSIONAL EXPERIENCE

Head of IT & Computer Science Teacher Jul 2025 — Present
The New School Dhaka · nsdschool.com **LEADERSHIP**

- Lead the school's IT team — supervise IT staff, set priorities, and own delivery across every technology function of the institution.
- Direct all IT operations: networking infrastructure, systems administration, technical support and vendor coordination.
- Own the school's digital presence end to end — website, online platforms, and portal integration across academic and administrative systems.
- Design the Computer Science curriculum against the Cambridge framework; author syllabus, course outlines and lesson plans for the full stream.
- Teach theory and laboratory Computer Science, ICT and AI classes.

Founder Jun 2026 — Present
Dabblers360 · Dhaka, Bangladesh **FOUNDER**

- Founded and lead a ten-person consultancy delivering three service lines — IT services, marketing, and business consulting — from a single platform.
- Built the team across engineering, web development, IT support, marketing, design, data analysis and legal consulting; set direction and quality standards across all engagements.
- Serve SMEs, startups, schools, corporates and non-profits with a research- and analysis-led approach, taking clients from initial plan through full brand execution.

Research Intern Jan 2025 — Jun 2025
Advanced Machine Intelligence Research Lab (AMIRL) · amirl.org

- Contributed to research and development of the BackBrainAI project.
- Led research on “Prompt Engineering & Bangla Language Interaction in LLMs: Challenges & Opportunities” — linguistic limitations, NLP model evaluation, human-LLM interaction modes and contextual performance.
- Ran literature review, experimental design, prompt optimisation and model-output evaluation; co-drafted technical documentation.

Laravel Developer Aug 2023 — Jul 2024
Tanvir Food Products (Delkhosh Brand) · tfp-delkhosh.com

- Designed, built and deployed a Laravel management system that digitised manual business operations end to end.
- Implemented secure authentication and owned the MySQL layer — schema design, query optimisation and data integrity.
- Managed hosting, server configuration and deployment; handled performance tuning, debugging and maintenance.

RESEARCH EXPERIENCE

- Journal** Comparative Analysis of Rent-a-House Platforms: Identifying Disparities and Recommending Enhancements for the Bangladeshi Market — HCI / UX Analysis. Supervisor: Dr. Mohammad Mahmudul Hasan, Associate Professor, AIUB.
- Conference** UX Maturity in Bangladeshi Digital Firms: A Multi-Case Assessment and Roadmap — UX Maturity, HCI, Software Engineering. Supervisor: Dr. Mohammad Mahmudul Hasan, Associate Professor, AIUB.

Journal	Prompt Engineering & Human Interaction in LLMs: Challenges & Opportunities — Large Language Models, Prompt Engineering. Supervisor: Prof. Dr. Firoz Mridha, Director, AMIRL.
Thesis	Reducing Infrastructure & Operational Costs in Microservice Architecture: Optimizing Resource Efficiency through Cost-Effective Strategies — Cloud Computing, Microservices, Cost Optimisation. Supervisor: Taslimur Rahman, Lecturer, Dept. of CSE, AIUB.
Journal	Bridge Framework for UX Design Gap: An Approach for Small Companies to Produce High-Quality Products — UX Framework, Software Engineering. Supervisor: Taslimur Rahman, Lecturer, Dept. of CSE, AIUB.

Current direction: green computing and carbon-footprint reduction across the Software Development Life Cycle, as a researcher with the Department of Computer Science, AIUB.

EDUCATION

BSc in Computer Science & Engineering 2021 — 2025

American International University-Bangladesh (AIUB) · Kuril, Dhaka

Major: Software Engineering · CGPA 3.93 / 4.00 · Magna Cum Laude · Dean's Award every semester · Merit Scholarship Holder

Higher Secondary Certificate (HSC) 2017 — 2019

New Govt. Degree College, Rajshahi · Science

GPA 5.00 / 5.00

Secondary School Certificate (SSC) 2017

Harimohan Govt. High School, Chapainawabganj · Science

GPA 5.00 / 5.00

TECHNICAL SKILLS

Languages	C++, C#, C, Java, Python, PHP, JavaScript, SQL, HTML, CSS
Frameworks	Laravel, Bootstrap, jQuery
Engineering	UI/UX Design, Software Requirement Engineering, Software Project Management, System Design
Tooling	Git, GitHub, Jira, Slack, MS Teams, LaTeX (Overleaf), Google Colab, Anaconda
Design	Figma, Balsamiq, Draw.io, Canva
Environments	Visual Studio, VS Code, PyCharm, NetBeans, Eclipse, Code::Blocks, Sublime Text, XAMPP, MySQL
Technical	Cisco Packet Tracer, AutoCAD, Arduino IDE, Multisim
Productivity	Microsoft Office Suite, Google Workspace

ACADEMIC LEADERSHIP

Convener, AIUB Students' Industrial Visit Program

American International University-Bangladesh

- Organised and led 15+ industrial visits connecting students with Bangladesh's leading software and technology companies — Brain Station 23, Softvence Agency, Riseup Labs, SparkTech Agency, 3S Software, JVAI, ScaleUp and DSI.
- Managed event scheduling, student coordination and all professional correspondence; negotiated technical sessions and company tours through formal industry outreach.

LANGUAGES & COMPETENCIES

Languages	Bangla — native proficiency · English — professional working proficiency
Interpersonal	Team leadership and coordination, academic presentation, collaborative research, active listening, conflict resolution
